## Bluetooth + FM Display Control Unit

Ref.

Color

Cavity dimensions in mm:  
45 x 45 depth 36

In-Wall Bluetooth Audio receiver + FM tuner, LCD display, RDS and Audio output. Perspex face cover.

Can be paired with any device with Bluetooth® capabilities (A2DP/ AVRCP profiles).

Fits into the most popular light switches in the market (45 x 45mm). Signal reach is 10/12 meters.

Max volume limit switch: the module has a back switch with 2 positions to select the maximum volume allowed in normal operation. This limit will be defined by the installer at the time of its installation.

Mono/stereo switch: the module has a back switch with 1 position to allow the installer to select the mono or stereo audio output.
